INTRODUCING
“RICRON PANELS”
FOR
FLY ASH BRICK PALLET AND PAVER BLOCK
PALLET

ABOUT OUR PRODUCT

RICRON Pallets is an innovative product made from recycled polymer using cutting edge technology.

A substitute for wood, plywood & metal.

Commercial and industrial applications and is extremely cost effective.

Key properties include high strength and good resistance to water.

FEATURES

- Best suitable for Fly Ash Brick & Paver Block Pallet
- Smooth surface
- Non Sticky Surface
- Water proof
- No corrosion like metal
- No delaminate like plywood
- Very Strong & Rigid
- Easy to clean

ADVANTAGES

- Eco-friendly (made out of recycled plastics)
- Supply as per required size
- No water absorption
- Smooth surface finish for Bricks & Paver Block
- Long life cycle as compared to Shuttering Ply
- Cost saving
- Time saving
- Quick delivery

RICRON OMEGA

These Brick Pallets are 100% Plastic and used where load is low and small in size.

Thickness : 18, 25 mm

Size : 550 x 450 mm

600 x 500 mm

600 x 600 mm

OR Custom Size below 600 x 600 mm

RICRON OMEGA-KP

These Brick Pallets are 100% Plastic and used where load is more and medium in size.

Thickness : 18, 25 mm

Size : 600 x 700 mm

550 x 750 mm

570 x 800 mm

OR Custom Size below 600 x 800 mm

RICRON GAMA-S

These Brick Pallets are Re-Enforced and used where load is very high and large in size.

Thickness : 25 mm

Size : 800 x 900 mm

850 x 1000 mm

925 x 800 mm

OR Custom Size above 600 x 800 mm

RICRON PAVER BLOCK SHEET

RICRON Sheets are widely used by Paver Block manufacturers for stacking the moulds on each other.

Thickness : 8, 12 mm

Size : 8' x 4'

4' x 4'

4' x 2'

2' x 2'

OR Custom Size.
